

MARACHI

Sanitary Ware Catalogue

INTRODUCTION

MARACHI Company Founded in 1998, is a design and development, manufacturing facilities, sales and service in an integrated company, covering 150 acres, 500 employees, annual output of high quality sanitary ware more than sixty million. In the ten years of development history, the company continued to optimise the organisational structure, systems integral, internal resources, create excellent Corporate culture, the introduction of senior management and technical personnel. At the same time increasing investments in technology, the introduction of advanced manufacturing and testing equipment and production technology, quality of products for the MARACHI laid a solid foundation. Over the years, MARACHI people to their wisdom, unity and fighting spirit, and actively respond to the dangers and challenges of development, tenacious perseverance to continue to carry out quality improvement. Advanced management, quality service, good credit management image, making MARACHI win the community's recognition and praise.

MARACHI existing products, product certification completed water-saving and environmental products certification, and try the National Development and Reform Commission Ministry of Finance and the mandatory inclusion of governed procurement list of preferred brand. MARACHI will, as always, to improve the satisfy quality of human responsibility, continue to adhere to energy-saving environmental protection and health development of the concept is fully committed to all-around development of the field of Sanitary ware products.
